Crisis Comes as Piece Work Edict Is Handed Down

(By Associated Press)

Chicago.—Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, Friday requested a conference with the railroad executives in session here, on behalf of the six big railroad unions which have voted to strike. Officers of 16 railroad unions went in session shortly before noon, at one hotel, while more than 100 railroad presidents are meeting at another.

URGE REDUCTION OF FREIGHT RATES ON FARM PRODUCE

(By Associated Press.)

Chicago.—Immediate reduction of freight rates on agricultural products for a trial period of from 60 to 90 days, pending further wage reductions, was one of the proposals presented to high railroad officers at the conference of the Associated Railroad Executives Friday.

A general policy of wage and freight rate reductions was the dominating topic under discussion. Realizing that the least steps necessary to lower wages and transportation charges would delay any benefit to the public, the railroad executives were urged to take prompt action.

According to railroad officials, a temporary reduction of rates on farm products was thought to be possible with comparative little delay. A tentative reduction of 10 per cent was suggested. The railroad executives would take up wage negotiations with their employees and if unable to obtain an agreement, they would take the matter to the Interstate Commerce commission.

A decision by the board to allow further reductions would then mean immediate application to the Interstate Commerce commission to reduce freight rates on all commodities. If the attempt to reduce wages was unsuccessful, it was expected that the present rate on farm products.

Hirst and Hoan in Wordy Battle Over Roads Tax

Marked by a sharp debate between State Highway Commissioner A. R. Hirst, Madison, and Mayor Daniel W. Hoan, Madison, delegates to the Wisconsin League of Municipalities meeting in the Edgerton high school Thursday night took action to thoroughly investigate Wisconsin's highway problem with the view of establishing a fair tax on motor vehicles.

City officials led by the Milwaukee mayor demanded a more just division of the state auto license funds to keep highway funds at home, not to be paid to the state and then sent back as state aid.

DISARMAMENT IS ONLY WAR CURE, ASSERTS BLAINE

TREATIES IMPOTENT, SAYS GOVERNOR AT MILTON JUNCTION.

VETO DEFENDED

Executive Justifies Self for Stand Against Mathe-son Bill.

(Special to the Gazette.)
Milton Junction.—International disarmament is the only remedy for wars such as that from which the world has just emerged, declared Governor John J. Blaine in an address late Thursday before crowds attending the local Harvest Festival. History, he said, has proved that written agreements between nations are worthless and that only by preventive measures can the world hope to avoid future conflicts of even greater magnitude than the recent war.

The governor spoke from an automobile opposite the band stand on merchant's row.

Face Big Problems.

"Out of the world we have come the most vital problems this nation has ever faced," Governor Blaine asserted. "We must not forget that in that conflict 10,000,000 young men gave up their lives to the god of battle. America alone sacrificed 76,000 of her noble young manhood. That great catastrophe brought death to 20,000,000 or 25,000,000 men, women and children, who died of starvation, privation and as the result of actual warfare. That catastrophe heaped upon the civilization of the world a burden of over \$250,000,000. The amount is staggering. America alone is burdened to the extent of over \$26,000,000. Thousands of young men are in our tubercular camps, vociferous and hysterical. They are more, shamefully neglected."

COUNTERFEITER TO LEAVENWORTH PEN

Federal Operatives Find Devices; Suspect Pleads Guilty.

(By Associated Press.)
Madison.—After pleading guilty to a charge of possessing devices for counterfeiting \$10 federal reserve bank notes, Simon P. Delich, 46, of Wilbur, Wis., was sentenced Friday to 10 years in Leavenworth by Judge Claude C. Luse, in United States district court.

Delich, a Croatian, pleaded guilty without an attorney, admitting United States secret service men had found a printing press, ink, plates and paper for making bank notes in his possession. Parties in Gary, Ind., his former home, and in Chicago, were implicated by Delich.

The convicted man declared that through a quarrel with one of his partners, he was starting in business for himself and had left Gary and gone to Willard. He had paper enough to make \$7,000 worth of \$10 notes, the federal men said.

Peter Labuzo, Madison, alleged by prohibition enforcement officials to have been peddling moonshine on the street near his home, was sent to the Dane county jail for three months by Judge Luse.

\$25 MORE PAID TO MUNICIPAL COURT

Municipal court coffers were increased \$25 Friday, when fines of \$12.40 were assessed against Frank Wilson and J. A. Campbell, the former for driving a car without a license and the latter for speeding on the concrete highway to Beloit.

Discuss Ornamental Lights

Mayor J. A. Janvrin, Beloit, Mayor Frank Dhooge, Ashland, and Mayor Welsh, Janesville, took a prominent part in the discussion of ornamental street lighting.

It was brought out through a canvass that there are only seven cities not charging licenses for the operation of automobiles.

La Crosse Mayor Re-Elected Head of City League

Mayor A. A. Bentley, La Crosse's chief executive for the past eight years, was re-elected president of the League of Wisconsin Municipalities and Mayor T. E. Welsh, Janesville, was returned to office as vice-president, at the closing session of the 1921 convention at the Myers theater, Friday morning.

Ford H. MacGregor, Madison, was named secretary for another year and the entire executive committee was re-elected, including Mayor Joseph J. Leary, Edgerton, as head of the First congressional district. The 1922 convention will be held in Appleton, probably in July or August, the plan being to meet earlier than usual in order to start a campaign of education of the two constitutional amendments which will be submitted to a referendum of Wisconsin voters at the fall election next year. One amendment refers to home rule for cities and the other for increasing the bonded debt limit 5 per cent to provide for the purchase of public utilities.

Resolutions Passed.
The closing session of the convention was featured by passage of a resolution fixing a new scale for dues for cities in the League, discussion of garbage collection, ornamental lighting, non-intoxicating liquor licenses and other municipal problems. A resolution presented by Mayor E. F. Murphy, Marinette, calling for the appointment of a committee of three to make a statewide investigation on the condition of vaults and safes in which cities' records are kept.

"This organization has made the mistake of changing its officers every year," said Mayor Murphy, Marinette, chairman of the nominating committee, in recommending the reelection of all present officers. "With such an efficient administration as we have had the past year, especially our able president, I think all the officers should be re-elected by acclamation."

The recommendation was adopted unanimously.

Praise for Janesville.

Laurel words of praise for Janesville and Edgerton for the great entertainment provided for the convention were spoken by many of the prominent officials. Mayor W. D. Gorham, Monroe, gave too much fine entertainment, and that as a result the convention had too little time for business. He recommended that the future convention be limited to order that smaller cities like Monroe would feel justified in asking to entertain the League.

"I object to any insinuation on Janesville's part for the great entertainment," declared one delegate. Upon announcement of President Bentley of the birth of a 9 1/2 pound girl to Mr. and Mrs. Charles Boutin, the delegates presented flowers to the home in appreciation of Manager Boutin's generosity in donating the use of the Myers theater for convention sessions.

It was voted to have the executive committee meet to prepare the program for the 1922 convention and that it be arranged at least two weeks in advance.

Welsh Talks on Garbage.
Mayor T. E. Welsh told of the success of his city's new garbage collection system. Alderman J. H. Brown, Madison, related of a ruling of the state board of health that after January 1, 1922, Madison will not be allowed to dispose of its garbage in the country but must open its incinerating plant abandoned for several years.

Along the line of refuse disposal, present action was taken by the convention, that La Crosse conserve its ashes to use for street paving, and that the city has miles and miles of streets paved with material.

In response to a question from Mayor Gorham, Madison, it was brought out the 10 fourth class cities are collecting garbage at the cost of the entire city, while 8 of the fourth class, the places where the collections are made pay the cost.

BRIDGE BLOCK IS DAMAGED BY FIRE

Heavy Loss in Three Stores from Blaze in Federal Bakery.

Threatening to mushroom between the roof and ceiling and spread through the entire block, fire Thursday night caused damage estimated at from \$3,000 to \$5,000 or more at 4-6-8 West Milwaukee street, on the north side of the Milwaukee street bridge.

Believed to have been caused by a wooden roof box catching fire from the heat of an oven in the rear of the Federal Bakery, the flames were eating their way through the roof when the alarm was sounded at 9:40. When the fire department arrived, the entire back portion of the brick structure had been consumed.

Two thousand people packed Milwaukee street. Lines of hose across the tracks stopped all trolley car traffic for half an hour. The fire under Captain Ben Smith established fire lines at the curb while the blaze was at its height.

Quick action by the firemen in laying two fire lines against the fire before it had gained much headway. Employees of the bakery had departed for the night a half hour before the discovery of the blaze. The fire only last Monday that the bakery had stopped working all night.

The bakery was open for business Friday. Damage to the extent of \$500 to equipment and material will only temporarily handicap the making of sweet pastries. A. J. Pettit, the manager, announcing that the regular line of goods will be made Friday.

More Men at Work in Wisconsin Now, Outlook Is Brighter

The Associated Press made a canvass Friday of the cities of the state on the question of employment. That there was a less acute condition here than in almost any other section seems to be disclosed by the telegrams.

A canvass of the mayors and other officials in attendance at the convention of the League of Wisconsin Municipalities by the Gazette also shows that Wisconsin with her many and varied industries and farm labor opportunities is less disturbed than most of the states over unemployment. In spite of the high freight rates, and in the hope that they will be lowered before the logging crop of the winter is ready to ship out, the lumber and logging concerns of the north are making preparations for a large cut and will use many men in the woods.

The unemployment situation is not acute except in the purely industrial centers of the state, like Racine and others largely dependent on the agricultural machinery and allied manufactures. Janesville has practically at this time no unemployment situation. A few from other cities coming here are given quarters and sent on but the home people are pretty well cared for so far with jobs.

MILWAUKEE JOBS.
Milwaukee.—Fewer men are out of work in Milwaukee Friday than a month ago. Friday's estimate placing the number idle at approximately 40,000 against 50,000 a short time ago. Sources of employment are being found by a special committee of the Milwaukee Association of Commerce.

Chalmers B. Traver, secretary of the association, says jobs in connection with the new buildings and repairs have been furnished to 5000 men in the last month.

Replies to a questionnaire to members of the association recently indicated an improvement in the general situation, with the exception of the metal trades. The situation is expected to improve considerably within the next two or three months.

Kresge Building Suit Formally Dropped by U. S.

Formal application for the dismissal of the government suit against the S. S. Kresge company, contractors, and builders was made before U. S. Court Commissioner Robert Cunningham Friday, and the complaint was dismissed. The defendants were T. J. Cosgrove, W. J. Storey, and C. R. Abbott, the contractors and engineers, engaged in building the Kresge building in the bed of Rock river in Beloit.

Charles E. Pierce appeared in the proceedings before the commissioner. Instructions by United States Attorney William L. Dougherty from Assistant Attorney General Albert Ottinger, Washington, D. C.

The letter advised that the question of erecting buildings over Rock river had been referred to the department. The department in turn ruled that buildings in Rock river did not concern the government at the present time. Consequently the government charges were dropped.

Bring in Millions of Dollars Worth of Whiskey to U. S.

Millions of dollars worth of whiskey is being smuggled into the United States from across the border of Canada and there seems to be no stopping it.

Judges give small fines, Canadian officers are in no mood to care or assist and for hundreds of miles of border there are 11 United States officers.

Ex-convicts and the criminal class, tempted by the great returns from selling to the rich violator and accessory have gone into the business in an organized way.

CLINIC GREATEST IN MIDDLE WEST

Local Exposition, Claimed Better than Tri-State, Closes.

Praised by visiting physicians as having been better than the tri-state medical clinic of Wisconsin, Illinois and Iowa, and also of the Wisconsin state clinic, the two-day clinic of the staff of Mercy hospital closed Thursday night. One hundred and fifty operations, more than 30 of them of a major nature and several of an unusual character, were performed. Seventy visiting physicians and surgeons were present. Thirty-five local medical men took part.

The equipment of the five operating rooms of the local institution proved a surprise. It was declared to be more modern than either the two big clinics of state and inter-state importance.

Sixty mothers, many of them with babies in arms, attended the children's clinic at the Methodist church Thursday night. Ten of them had their infants examined and were given advice.

Care of Children.

Grouping the care of children in three divisions, Dr. W. P. Winholt, Chicago, specialist on children, explained the latest methods for the development of healthier boys and girls. He took up the pre-natal stage; the period from birth to two years; and the pre-school years.

The proper way of feeding the infant is upon the breast at four hour intervals for a full year. The baby should be kept entirely upon the breast for the first six months, he said, when cooked cereal can be given. Acknowledging that the tendency is to give cereal much earlier, he advised waiting the full six months.

When a year old, breast feeding should be once or twice a day; cereal should be given once or twice; and vegetable once. With regard to eggs, he remarked that while the average infant can digest them at a year, it was safer to wait until 18 months. No meat should be given until 18 months old, when the child should be placed on table diet of three meals a day.

Pre-School Age Important.

The pre-school age is the period that is now receiving the greatest attention, the physician declared. When children enter school, it is found that most of them are undernourished.

When a year old, breast feeding should be once or twice a day; cereal should be given once or twice; and vegetable once. With regard to eggs, he remarked that while the average infant can digest them at a year, it was safer to wait until 18 months. No meat should be given until 18 months old, when the child should be placed on table diet of three meals a day.

Physical defects, 40 per cent, which are usually about the neck; improper feeding; unhygienic conditions such as lack of fresh air and sunshine; lack of home control and over-activity.

Over-activity, which requires more food to replace burned up tissues, is common among the more wealthy classes. With respect to over-activity, he stressed the importance of insisting that the child have naps every day—not for rest alone, but for absolute sleep.

After the child has been weaned, he urged the use of a pint and a half of milk a day, including that for both drinking and cereal. He advised against too much milk as enlarging the abdomen and lessening the appetite for other foods. Bolder milk, less the supply is from tubercular tested cows, was urged with the giving of fruit juices up to five months of age. The value of boiled milk, he asserted, was that the curd is smaller and makes for easier digestion.

Says Mother of 11 Hasn't Time to Flirt

New York.—When Stephen Price pleaded guilty on Thursday to assault in the second degree, committed against John M. McGee, and pleaded as justification that McGee had been flirting with Price's wife, Judge Larkin, in the county court, asked Price, "How many children have you?"

"Eleven," replied the defendant. "Well," said the court, "I'll appoint a commission to examine into your sanity. I believe a man is mentally unbalanced who thinks that the mother of eleven children has either time or inclination to flirt with anybody."

FOUR MEMBERS OF BRITISH DELEGATION TO DISARMAMENT PARLEY ARE NAMED

The four members named. Above, H. A. Fisher, left, and Andrew Bonar Law. Below, Lord Lee, left, and Winston Churchill.

The names of four men Great Britain has so far selected to send to the disarmament conference at Washington have been submitted to the U. S. state department for approval. These four men are Andrew Bonar Law, former leader of the house of commons; Winston Churchill, president of the British board of education. It is not known definitely whether other men will be added to this group before time for their departure for the U. S. Pressure is still being brought to bear on David Lloyd George, British premier, by his friends, to get him to attend the conference. He has pleaded stress of matters at home as the reason for his hesitancy in joining the delegation.

Say Home Brew Kits on Sale in Wisconsin

Madison.—The sale of home brew kits ready to be filled up for the manufacture of moonshine and fermented drinks, are sold generally over Wisconsin. It was said at the office of the prohibition commissioner Friday.

State law does not prohibit sale of the apparatus which is said to have just resulted in a general order by federal prohibition enforcement officials, against its disposal to individuals who would use it for home brew manufacture.

State enforcement officers say that it would be extremely difficult to put an order into effect, getting off sale of the apparatus.

UNEMPLOYMENT LESS NOW IN WISCONSIN

(Continued from page 1)

cial fund of \$150,000, the city of Racine has been able to provide employment for many of its unemployed. The park board is using a large force of men in improving city parks. These men work in relays, one force working for a week and laying off two weeks. Many of those given temporary employment have obtained regular jobs elsewhere and in consequence give way to men in need of help. Street pavements also are being improved.

1000 ARE IDLE.

Green Bay.—A survey of the unemployment situation in Green Bay, reveals about 1000 persons idle. The survey is declared by the federal employment, bureau manager to be conservative. Applications for jobs, numbering 250 to 300 a week, continue to come in, but only about 55 per cent of these can be placed. Those placed are for part time jobs only.

BUILDING WORK HELPS.

Oshkosh.—There is no serious unemployment situation in Oshkosh and none is expected, the coming winter. Local factories are working to relieve needy cases. Some men are out of work, but the number is decidedly less than in many places. Some factories are operating at less than capacity, but the excess of unemployment over former years is not such as to cause anxiety. Building operations have helped to take up slack.

25 PCT. LESS WORK.

La Crosse.—A canvass of the unemployment situation in this city reveals the fact that 25 per cent less men are working now than in 1919. Local factories than a year ago. The loss in wages is \$33,000 per week.

GAIN IN KENOSHA.

Kenosha.—Kenosha's industries are employing 65 per cent of the number of employees on the pay rolls a year ago, according to a statement Friday morning by Secretary Conrad Shearer of the Kenosha Manufacturers' association. Recent reports from factories here show a slow but steady gain in production. No marked change is expected for two months, with a possibility of a small reduction in some of the plants.

Illinois Situation.

Approaching Normal

Chicago.—Unemployment was shown to be decreasing in a number of the more important cities of Illinois with several reporting conditions approaching normal in returns from a survey received Friday.

Construction work was declared in full swing at several points, while factories and railroads were reported adding to their forces. Work for many unemployed also was provided by extensive municipal improvement.

Reports from agricultural communities.

munities indicated the demand for men hunkers exceeded the supply. Railroad centers reported additions to railroad shop forces which were declared to be near normal.

At Elgin every industry was operating at virtually the normal rate. Champaign and Moline reported heavy building operations, although at the latter place, work in implement factories virtually was at a standstill, with 2,500 men unemployed.

At Quincy 3,110 are out of work. Springfield reports 3,000 unemployed.

Billy Wilker's

Now look out for your chance. "All right," barked Stubby, and he dodged under a fence and into a lumber yard, while Billy Jr. put down his head and ran faster than ever. I heard one of the sailors tell another man that the captain said he would have the little sailor's head on a platter and that he was going to take the goat some for his. "Of course," said the captain, "the cat will stay on the ship, but I have never had an accident, and I should hate to lose him for a goat as though he were my mascot. He came on the ship, my first voyage, but I have never had an accident, and I should hate to lose him for a goat as though he were my mascot. 3D U. S. INFANTRY COMING NEXT WEEK

Famous Regiment Here on
325-Mile Hike—To Camp
at Fair Grounds.

On one of the longest hikes ever taken by a regular army outfit, the Third United States Infantry, the oldest regular army organization in the United States, will arrive in Jansville Tuesday or Wednesday next week and pitch camp at the fair grounds. The soldiers are marching from Camp Sherman, Ohio, to Fort Snelling, Minn.

Announcement to this effect was made Friday by Capt. F. C. Schmidt, operations officer for the arrival of the regiment. He is traveling alone in his car and is preparing data to write a story of the march. A large number of plans have been made. Capt. Schmidt is a former newspaper man.

Started From Ohio.
The Third Infantry with the Second started out from Camp Sherman, Ohio, Aug. 11, marching 170 miles to Camp Pelee, where they remained during the national rifle meet. Late in September they started west. They camped in Chicago Thursday night after a record-breaking march of 26 miles from East Chicago in one day. This is the longest day hike of the trip. The Second Infantry will be stationed at Fort Snelling and the Third will continue on with Fort Snelling, St. Paul, Minn., as their destination.

They started for Evanston Friday where they will camp. The entire distance from the starting point to the destination is 325 miles. The organization is almost reduced to a skeleton, there being only 200 men and 110 mules and 37 horses remaining equipment. Five days' forage will be taken on at Jansville.

At Delavan, Evansville.
They will camp the night before arriving in Jansville at Delavan and the night after leaving Jansville, at Evansville. The hike is averaging about 17 miles a day. The regiment will be stationed at Fort Snelling to have charge of the Citizens' Training camp activities. The history of the 3rd Infantry dates to the days of George Washington. The organization was formed in 1792, the original order having been signed by President Washington. During its 130 years of service the regiment has been actively in every war except the last big conflict. It was selected by the government as one of the training regiments and from its station in Jansville more than 4,900 trained soldiers overseas.

AT THE THEATRES

With an unusually good picture and a good vaudeville bill, patrons of the Myers theater will be pleased with the picture and program, "The Silent Men," featuring Thomas Meighan, one of the big stars since his acting in the famous "Miracle Man." The picture shows views of Sing Sing and the Hudson river.

Frank H. Carter, a member of the orchestra, showed his ability in the first act, in which he played the piano solo and also acted as chief singer at the Samson tractor company, and his case hobby is playing the trombone.

"The Bimbos" cracked enough jokes to make an act without their acrobatic stunts. The audience is kept in suspense and uproar when the man sits on a barrel on top of four tables and swings back and forth.

Butler and Vance in their "aut" act took well with the audience. A surprise was sprung as the act closed by the women wearing a gown of a thousand mirrors, each an inch square. The dress weighed about a pound and a half and was produced when the stage was darkened and the spotlight turned on her. The mirrors reflected the bright light like dragon flies flying over the audience.

A pretty girl and pretty costumes made up the fourth act, with Rita Shirley singing. She has a pleasing voice and personality.

"The Bill" was concluded with Burke and Burke in "A Western Union Filtration," in a humorous dialogue.

Pile Sufferers
Can You Answer These Questions?
Do you know why ointments do not give you quick and lasting relief?
Why cutting and operations fail?
Do you know the cause of piles is internal?
That there is a stagnation of blood in the lower bowel?
Do you know that there is a harmless internal tablet remedy discovered by Dr. Leonard and known as HEM-ROID, which is guaranteed to cure piles and hemorrhoids?
HEM-ROID banishes piles by removing the internal cause, by forcing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for curing piles and hemorrhoids, and saves the needless pain and expense of surgery. There is no reason why it should not do the same for you.

PLAN SECESSION FROM JUGOSLAVIA

Bosnia and Croatia Bent on Freedom; Censorship Established.

Zagreb, Croatia.—The secession movement in Bosnia and Croatia for separation from Yugoslavia is in full swing and events of great importance may develop any moment, says the Associated Press bureau.

The Hrvatska Liszt, published here has this to say:

"Our day will soon arrive. Our patience is at an end. We cannot remain inactive any longer. Let some one raise the standard of rebellion and even the dead will arise in their graves to fight for liberty."

Newspapers published in Raditch openly affirm that the fight for freedom of Bosnia and Croatia is on and that the goal will soon be reached.

The Belgrade government has established a severe censorship on all news coming out of Bosnia and the river traffic between Bosnia and Serbia is interrupted. The Second regiment of infantry, composed for the greater part of Croats, has been replaced as a garrison at Zagreb by a regiment of exclusively Serbian.

THIEF MISSES WILL WHICH WOULD HAVE MADE HIM WEALTHY

Senlis, France.—Three hundred yards from the monument which marks the further southern advance of the German army in France, in the woods near here, Anatole Demuy, a pensioned railroad worker while strolling after lunch stumbled upon the body of a man whose right hand still held a revolver.

Demuy lost no time in going through the man's pockets and appropriating 3,500 francs, scoring National Defence Bonds and other papers among which was a will and last testament.

Noticing his exaggerated expenditure and failing to obtain any information from her husband as to the hidden source of his sudden wealth, Demuy's wife reported him to the police. He was arrested and, on threat of being charged with theft, directed the police to the spot where the body was found.

Dedicate Tablet to Memory of Heroic Newsboy Who Died Holding Path Against Huns

Brookline, Mass.—A bronze tablet, depicting the death of Albert Edward Scott, a 15 year old newsboy, who died beside his sho-sho gun in France after having killed and injured 31 Germans, will be dedicated here Oct. 28 with exercises at which William Jennings Bryan will make the principal address.

The memorial, which has been placed on the Town Hall, is the gift of newsboys of Greater Boston, of whom "Scotty" was one until he volunteered for service overseas. The tablet, reproduced from a painting by Gale Hoskins based on official photographs, cost the newsboys \$2,000.

Tribute to Newsie

President Harding and Vice President Coolidge, expressing their regret at their inability to be present for the dedication exercises, approved the memorial in letters. The president, in a letter to Edward Keavin, director of the Roosevelt Newsboys association, which had charge of raising the funds, expressed approval also of the plan to have Mr. Bryan make the principal address in his stead. "I am glad that with the former secretary of state as speaker 'a most appealing address' was assured."

Vice president Coolidge paid a tribute to boys who sell papers, saying: "Newsboys go everywhere, see everything and know everything. There is no experience in which they do not have a part, and no life which they do not live. They are Americans. To their spirit to their enterprise, to their courage, to their devotion, it is altogether fitting that a memorial should be erected bearing the name of one of the number who has become immortal."

A boys' band of 200 pieces from New York will have a part in the program.

Holds Path; Dies

"Scotty" dropped his newspapers one day to enlist, less than a month after he was graduated from grammar school. A few weeks later he was in France as a member of the 101st Infantry. At Eples, July 23, 1918, a year later, the boy volunteered for extra-hazardous service.

"See that path, Scott," said his lieutenant. "That's your target, not a Hun must cross it."

"Yes, sir," said Scotty, saluted and took up his sho-sho gun. Single-handed he held the path while he killed or crippled 31 Germans, then died from his wounds.

LOST: Black dog, white spot on breast. Name "Paddy." Send information to R. R. 29, Box 41, Evansville, Ind. Reward.

PLANT SHRUBS TO BRING BIRDS, PLEA

Feathered Friends Vanishing for Need of Food, Shelter, Forester Says.

New York.—Trees, shrubs and vines which will attract the birds should be planted by home owners, according to Prof. Alan P. Arnold of the New York State College of Forestry, who declares many of our native birds are disappearing because of the lack of food and shelter.

Professor Arnold has made public a list of plants attractive to birds, which included many of the most ornamental of plants. This included the native red cedar, which provides the best shelter and nesting sites for birds while they find food in the berries and insects commonly found on the trees.

Creepers Is Valuable

The native flowering dogwood and the Chinese flowering crabapple are also favorites of the birds. The gray-stemmed dogwood honey-suckle, American elder and shagbark hickory are serviceable. The Virginia creeper, is given as one of the most popular vines, furnishing nesting sites for birds and draws the attention of birds away from grapes, apples and peaches.

"If one has a place where plants of a wilder sort can be introduced," said Professor Arnold, and wishes to make a special point of attracting birds, there is a great variety of native plants that could not perhaps be used for more finished effects but here would be just the thing.

These are mulberry, tupelo and white spruce, such shrubs as the spice bush, choke cherry and swamp rose and bitter-sweet and frost grape vines. The flowering dogwood, mulberry, wild black cherry, bayberry, American elder and the high-bush blueberry can be counted on in general to attract the bluebird, cardinal, flicker, kingbird, Baltimore oriole, robin and cedar waxwing.

The home owner interested in observing birds himself or affording an opportunity for his children, the farmer who desires to protect his fruit crops and the person who wishes to assist in the conservation of our city and forest trees as well as our native birds, can form a great public service by planning his planting with the birds in mind.

Getting Other Chap's Goat Costs Money Here

Vancouver, B. C.—Getting a fellow's goat in British Columbia might cost the getter from \$45 to \$500. That is the range of prices for Toggenburg, Saanen and Nubian animals. These are milk goats and British Columbia is the heaviest breeder of milk goats of any province in Canada. Goats in the province number 5,000 according to figures issued by the provincial Department of Agriculture.

The original foundation stock numbering 200 head, was imported from the United States in 1917. Efforts of breeders have been concentrated upon the Toggenburg, Saanen and Nubian breeds. These are noted for milk-production. Official records have frequently run as high as 2,000 pounds to an animal and one goat has a record of 2,242 pounds.

No labor is necessary in raising goats. A snug, comfortable house, free from draughts and rain-proof, that is required for shelter. The animals pick up their own living, feeding on grass and all kinds of leaves, weeds and branches of young trees.

VOICE OF THE PEOPLE

Editor Gazette:

Why don't we stop frittering away time in our schools and get to the fundamentals? It seems to me the child of today is in a continual state of excitement getting up candy sales, pageants, fairs, etc. The teachers are already so overworked that it is hardly fair to put more on their shoulders. The cry eternal "Please give me 10 cents to buy candy. We want some flower baskets. Or we need for our room." It seems to be a continual call for raising money. Of course some parents with overly bright children have no objections to this excitement but many children are unfortunate not to be in this class and a refusal to allow them to attend these entertaining functions brings down an avalanche of bad feelings and self pity. When I went to school many years ago we didn't have a Victrola in each room. Just an old rattle trap a piano for the whole school where one of the teachers played the grand march and we with clubs performed callisthenics that helped greatly in physical development, without our having to resort to dancing classes at \$7.50 for ten lessons. Every Christmas and Easter the school was agog, parents were invited, a little drill, some songs with action, readings, a cantata by the smaller children, extracts from Shakespeare, etc.—all taught by the teachers in the school and not by professors of dancing and elocution to whom an extra fee must be paid. Every parent left feeling good and knowing their children were learning many things.

Some one says that the P-T meetings mean every thing in some localities. Is that any reason for making our schools the dumping ground for social aspirations? What have the poor teachers done to be so afflicted?

We have large functions, sometimes on Saturday, and I am sure if the teachers were invited and they accepted, it would be a better chance to get to know them, for certainly if they are good enough to teach our children, they are good enough for us to cultivate instead of patronizing.

Since when have the schools become the dumping ground for movie house advertising? It seems like taking precious time of our schools

PENILESS SAILOR TUMBLES KERPLUNK INTO FAT FORTUNE

Dunkirk, France.—Lancelotti Puech, for 20 years a sailor, recently was discharged at Ghent and came to Dunkirk in order to ship again. He had been two weeks ashore and having spent his money like the proverbial sailor was flat broke when he called at the shipping agents.

"We have been looking for you for four years," said the clerk after scanning the sailor's papers. Puech looked uncasy as he followed a general to the office of a notary public.

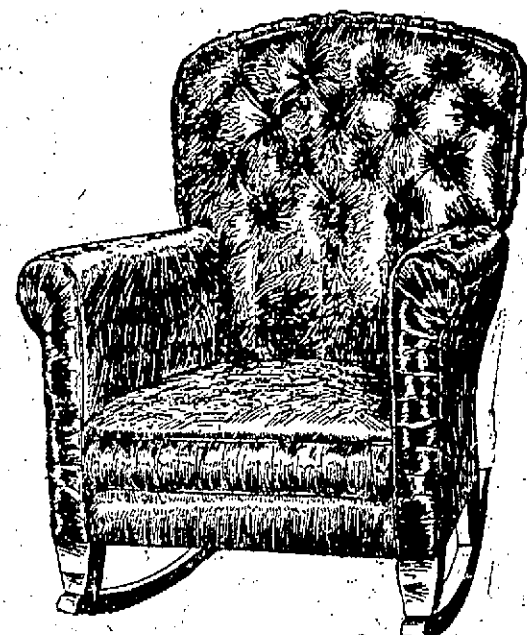

"Your Uncle Scaird, who left for Argentina 30 years ago, died in 1917. He leaves you \$8,000,000 francs," the notary told Puech. Puech says he is going to buy a ship of his own.

Landis Recommends Seven Game World Series for 1922

Copyright 1920 by Geo. McManus.

NEHF TELLS HOW HE GOT OUT OF HOLE IN NINTH

New York—Federal Judge K. M. Landis, commissioner of baseball, said he would recommend a seven game world's series next year instead of the nine scheduled this year.

(BY ASSOCIATED PRESS.)

New York—New York went back to work Friday after partially forgetting business for more than a week because it interfered with interest in the more enthusiastic fans decided to wait a while before returning their noses to the grindstone. They felt it wholly fitting to sit and talk about what a great thing it all was this triumph of the New York Giants over the New York Yankees, five games to three in the first world's series that Manhattan ever enjoyed to itself. There fans opened the hot stove league season with fervor.

The Giant rooters contended their favorites were the games in baseball and after that they had been shut out in the first two contests they fought back winning five of the last six games.

Yank Sluggers Outlit
Supporters of the Yanks countered with the observation that the last two games in which they lost the last two games for the American leaguers whose pitchers, Mays and Hoyt, performed finely and deserved shutouts. And they also would have Giant fans remember that Babe Ruth, the "thunder" of all "thunderbolts" in the matter of clouting baseballs, played the early games handicapped by a multitude of injuries which forced him out entirely in the final two of the series.

Everybody agreed that the one big reason the Yanks lost, was the fact that their heavy hitters to hit heavily.

"Nobody can say we quit," Babe Ruth declared. "It's too bad we lost, but even in defeat we fought hard and the last run was out. The Giants got the breaks in the last two games. Luck was with them but we gave them a real fight."

Baker Worried Neht
Arthur Neht, who swirled the Giants to the world's series championship in the final game said the ninth inning was the most thrilling he had ever pitched.

"I knew I had victory within my reach when I walked out to the mound for the ninth," he continued. "I was not disturbed when Ruth came up instead of Fipp. The biggest moment came when Ward walked and Baker stepped to the plate. I remembered that Baker beat Mathewson in a world's series by making a home run in the 9th inning. I pitched carefully to him and when Ward stepped that ball, it took a great load off my mind."

Walter Hoyt, the defeated twirler, was almost heartbroken at his failure to win his third straight game over the Giants.

"I gave the best I had," he said.

Ruth Gets Crowned
The "Hurricane" played off by the Mousel brothers, Emil of the Giants and Bob of the Yanks, was won by the former, with a batting average of .345 to Bob's .200. In 25 trips at bat, Emil scored 20 runs and made ten hits for a total of 17 bases. The Yank Mousel in 30 times up, scored three runs and made six hits for a total of eight bases. Under the terms of the series proposed by Emil, Bob must furnish a Thanksgiving dinner for the whole Mousel family.

Babe Ruth, long known as the King of Klout and Sultan of Swat by his subject fans, was formally crowned in the club house after the final of the series. Manager Huggins celebrated at the coronation ceremony, placing on the regal head \$500 worth of silver crown presented by admirers. The crown was inscribed "King Ruth."

New Badger Lineup May Face Purple

(SPECIAL TO THE GAZETTE.)

Madison—Football practice is still secret. A new line up will probably start the Northwestern game. Rowdy Elliott, Rolfe Williams, Sundt, Brumm, Gould, Tobell, Gibson, Brader and Bunge are almost sure of starting.

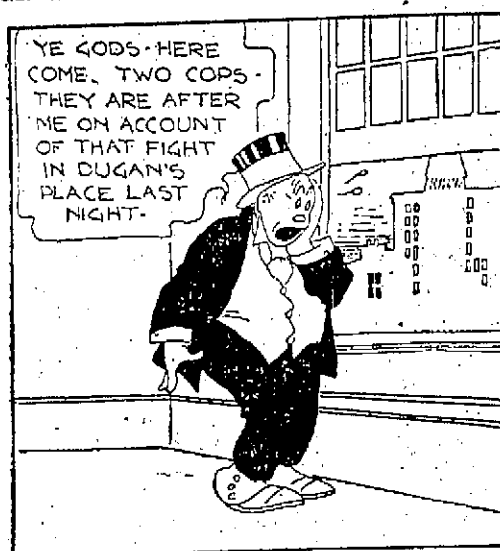

Coach Richards has prepared his men for a hard game. Although Northwestern has lost two games there is little doubt but what they will put up a good fight. About 30 men will make the trip to Evanston, with most of them in good shape.

The Iowa-Illinois game and the Ohio-Minnesota game will be the big games in the conference. Two teams will be eliminated from championship hopes. A special train has been chartered for the Illinois game, a week off. About 300 students are expected to accompany the team. The band will go on this train and will play an important part in keeping the team in good spirits. A popular student subscription made it possible to send the band.

Improved Grid Squad to Meet Fort Here Saturday

Upon whether the Janesville high school football team shows as veterans or plays like inexperienced gridders depends victory for the locals over Fort Atkinson at the falls here Saturday afternoon.

The Fort, which always has been the toughest customer for the Blues, is just as tough this year as ever. A royal battle looms.

Advance sale of tickets to the student body at the school indicates the record crowd of the year. Wide interest is being shown among the local fans. Constant waves of rooting are promised.

While some of the Janesville players are bunched up, they will all be in the battle Saturday. The team is rounding into fine shape. They are beginning to work their plays like a machine and are showing "considerable speed."

The most promising factor is that the line is strengthening while the backfield is picking the holes and shooting through them in fine style.

STUDENTS WITHDRAW FEELING VS. PURPLE ON INJURY TO OSS

Minneapolis—Sentiment in favor of shelving of the petitions being circulated at the University of Minnesota calling for abandonment of athletic relations with Northwestern University was growing among students on the campus Friday. The petitions, whose backers claim to have 1,500 signatures, charged unsportsmanlike tactics by Northwestern players in last week's game at Minneapolis, in which Arnold Oss, Gopher halfback, was injured. The change in feeling toward the

petition is said to have followed a report that Oss and other members of the team were opposed to them. Oss is still confined to a hospital with his injured leg but may be able to resume football practice in another week or ten days.

EXPECT SPROUL AS KNOX SUCCESSOR

Pennsylvania Governor Slated; Story of Rivalry Is Revealed.

By DAVID LAWRENCE.
Copyright 1921, by Janesville Gazette.

Washington—Governor Sproul of Pennsylvania is expected here to succeed the late Philander C. Knox as junior senator from Pennsylvania.

Except for the timely intervention of President Harding, the Pennsylvania governor would have been a contender in the primaries next spring opposing Mr. Knox for re-election.

Only the influence of the president of the United States smoothed out a situation in Pennsylvania which, for a time threatened heavy rivalry. With the death of Mr. Knox, the story can be told, for it bears directly upon the choice of his successor.

Mr. Knox was happy in the senate. He wanted to be re-elected. He had been attorney general, under President Roosevelt and resigned to enter the senate, only to resign again and become secretary of state under President Taft. But he finally found in the senate an opportunity to display his legal talents to best advantage and fairly revelled in the task of picking sides in the Versailles treaty and league covenant. He was a dominant influence in the famous "battalion of death" which determined that the United States should never enter the league of nations.

Mr. Harding would have liked to make Mr. Knox secretary of state, but realized that he must choose a man who had not been so conspicuously identified with the national fights in the senate. Mr. Knox was in ill health, yet he was considerably annoyed by reports that his advanced age was interfering with his possible selection as secretary of state. After Mr. Hughes was appointed, the Pennsylvania senator, who had been dovetailing himself much to the liking of political fences in his home state, came to realize that his seat was endangered by the rising influence of Governor Sproul in republican councils.

The governor had been urged to run for the senate. Mr. Knox told President Harding the situation. The president invited Governor Sproul to the white house. He didn't specify in advance what the subject of the conference would be. As Governor Sproul entered the executive offices of the white house the president stepped forward and greeted him cordially.

"I want to discuss some matters with you," the president is quoted as saying, "and there's a man here I would like to have with us."

At this moment Senator Knox stepped into the room. He had been waiting for the governor's arrival.

SOUTH CHINA REPUBLIC FIGHTS FOR RECOGNITION AT DISARMAMENT MEET

Leaders in the rival factions in China. Above: Dr. Alfred Soe, Chinese ambassador to the U. S.; left, President Sun Yat-sen of the republic of South China; center, and Dr. Wu Ting Fang, former ambassador to the U. S. and now foreign minister of

South China. Below: President Hsu Chih Chang of the Peking government, left, and Ma Soe, representing South China at Washington.

Whatever surprises the sudden appearance of Mr. Knox had for Governor Sproul was immediately dispelled as the president put his arm about the senator's shoulders and, according to the story, said:

"I want you to know, Governor Sproul, what strong support I have had from Senator Knox in the senate. I have come to be largely dependent upon him, and upon his sound advice. I would esteem it a great loss not only to myself but to the country if anything should interfere with his re-election and re-election next year."

It is said that Governor Sproul smiled most amiably and assured the president that he knew of nothing political that would prevent the re-election of Mr. Knox. He told the president that Senator Knox would have his full support. Not long

afterward, the president went to Valley Forge, the home of Senator Knox, and spent a week-end. Governor Sproul, Senator Penrose and others prominent in Pennsylvania affairs came to call on Mr. Harding. Shortly afterward, Mr. Knox told his friends here that the situation had been straightened out and that he was assured of re-election. So he went to Europe for a couple months and had just returned to Washington this week.

Must Boost Sproul.
The significance of the foregoing story is this: Having dissuaded Governor Sproul to run for the senate, the administration now cannot but put the full weight of its influence behind Mr. Sproul. The Pennsylvania governor, moreover, has the power to have himself appointed for the remaining months

At 9:30 they enjoyed a spread at Ego's restaurant.

of Mr. Knox's term. Once in the senate he would be entitled to administration support for re-election. He is bound to become an important influence in the senate. He was talked of as a presidential candidate a year ago and received Pennsylvania's ballot repeatedly at the Chicago convention which nominated Mr. Harding. Washington looks on him as one of the progressive group of senators who is likely to take up the mantle of leadership in Pennsylvania when Senator Penrose is compelled by ill health to relinquish it.

Old Battleship Wisconsin Will Sell for Junk

Philadelphia.—Three obsolete battleships, a cruiser and two monitors, will be sold as junk at the Philadelphia Navy Yard.

The vessels are the battleships Maine, Missouri and Wisconsin, the cruiser Columbia and the monitors Oriskany and Tonopah. They represent an aggregate tonnage of 53,000. All stores and machinery worth salvaging will be removed before the sale.

The battleships and monitors carried main batteries of twelve inch guns, now declared obsolete as effective fighting units, though they all served on active duty during the war as station or training ships. The cruiser Columbia, one of the fastest warships in the Spanish-American war, was used on patrol and convoy duty.

The Maine and Missouri were commissioned in 1901. The Maine replaced the old Maine blown up in Havana harbor in 1898 when went into commission in 1907 with the North Pacific squadron. She was turned out by the Union Iron Works on the Pacific coast. The monitors Tonopah and Oriskany went into commission in 1900.

Mandarin Salad—Dice the pulp of one pepper and marinate one hour in lime juice, pepper and salt. Drain and add a teaspoon of minced red pepper and one-half cup of grated fresh coconut. To one-half cup of the coconut, milk add a teaspoon of lime juice and pepper. Mix well and pour over the salad.

CREAMED PEARS—Make a rich cream sauce, add the juice of one lemon and one-half cup of grated cheese. Add a diced pear, and cook five or six minutes after it begins to simmer. Serve on toast.

Celery, Cabbage and Nut Salad—Select a solid head of cabbage. Remove sufficient leaves to make three cups of finely shredded cabbage. Chop sufficient celery stalks to make one and one-half cups of the chopped vegetables. Place the shredded cabbage and the chopped celery in a pint of cold water to which one tablespoon of lemon juice and the rind of one lemon have been added. Let stand for one hour. Dry off on a piece of cheesecloth. Add one and one-half cups of chopped peanuts. Toss lightly together. Mix with boiled dressing; serve in a cabbage leaf.

Mrs. R. A. D. Cort Van der Linden.

In these days when many women are entering the stage field via the divorce or murder court, the news that the limelight still can be reached by the same old method of diligence and study is refreshing. Mrs. R. A. D. Cort Van der Linden, well-known society woman who gave up her social activities to study for the stage, makes her debut soon in "We Girls." She has been at work months on the role she will play.

FRENCH DELEGATION WILL WATCH PACIFIC ISSUE AT PARLEY

The leading French delegates expected to attend the disarmament parley and map showing location of France's possessions in the Pacific Ocean. Her main possessions are in black. The delegates are, above: Premier Briand, left; Albert Sarraut, center; and Marshall Foch. Below, Ambassador Jasseron, left, and Philippe Berthelot.

While France's interests in the Pacific Ocean are not as vital as those of the U. S., England and Japan, the French nation will play close attention to the disposition of the Pacific and far east problems at the disarmament conference. Premier Briand, it is definitely announced, will head the French delegation. Marshall Foch, military wizard of France, Philippe Berthelot,

general secretary to the French foreign office; Albert Sarraut, colonial minister, and Jules Jasseron, French ambassador to the U. S., will be among the delegates.

Young man of whom I think very much of as a friend. My parents do not wish me to see this man. Now we have moved away and he wants me to write to him. He has a sister with whom I am and intend to write. Do you think it would be all right to send him a little friendly letter to him along with hers? He has asked me for my picture but I would not give it to him.

Dear Mrs. Thompson: I have been going with the boys quite a good deal this summer. My friend and I were always very careful what we did and said when there were boys around. My folks generally knew the boys that I went with and if they did not I always introduced them. In spite of all this people talked about me and never mentioned my friend when she was really the worst of the two to go with them.

I quit this girl friend and most of the boys. I still speak to them but cover go with them. Whether I did right or not I do not know, but I did what I thought would be right.

Will you please tell how a girl should entertain a boy friend at her home. This seems to be one of my most embarrassing problems. I am KENNEDY.

When a young man calls on you, read together, look at Kodak pictures, illustrated magazines, make candy, have music or just talk. Don't spoon. Be more careful of your choice of friends, your conduct and the places you go in the future. After a while people will forget what they have said and will learn to respect you because you are worthy of respect.

Dear Mrs. Thompson: I am 14. Is it all right for a girl to go to a ball game? A CONSTANT READER.

It would be all right to go to a school ball game with classmates. But to go to a big game a girl of 14 should be accompanied by a grown person.

Dear Mrs. Thompson: I am a girl 17 years old and I am in a party which did not break up until 6:30 a. m. on Sunday. Do you think it was proper to have a young man accompany me home at that time? ANXIOUS.

An all night party for a girl of your age was decidedly improper. To return home at such an hour would be embarrassing. It seems to me it would be less embarrassing to return alone than with a young man.

Dear Mrs. Thompson: I am a girl 16 years of age. I know a certain

young man of whom I think very much of as a friend. My parents do not wish me to see this man. Now we have moved away and he wants me to write to him. He has a sister with whom I am and intend to write. Do you think it would be all right to send him a little friendly letter to him along with hers? He has asked me for my picture but I would not give it to him.

Dear Mrs. Thompson: I have been going with the boys quite a good deal this summer. My friend and I were always very careful what we did and said when there were boys around. My folks generally knew the boys that I went with and if they did not I always introduced them. In spite of all this people talked about me and never mentioned my friend when she was really the worst of the two to go with them.

I quit this girl friend and most of the boys. I still speak to them but cover go with them. Whether I did right or not I do not know, but I did what I thought would be right.

Will you please tell how a girl should entertain a boy friend at her home. This seems to be one of my most embarrassing problems. I am KENNEDY.

When a young man calls on you, read together, look at Kodak pictures, illustrated magazines, make candy, have music or just talk. Don't spoon. Be more careful of your choice of friends, your conduct and the places you go in the future. After a while people will forget what they have said and will learn to respect you because you are worthy of respect.

Dear Mrs. Thompson: I am 14. Is it all right for a girl to go to a ball game? A CONSTANT READER.

It would be all right to go to a school ball game with classmates. But to go to a big game a girl of 14 should be accompanied by a grown person.

Dear Mrs. Thompson: I am a girl 17 years old and I am in a party which did not break up until 6:30 a. m. on Sunday. Do you think it was proper to have a young man accompany me home at that time? ANXIOUS.

An all night party for a girl of your age was decidedly improper. To return home at such an hour would be embarrassing. It seems to me it would be less embarrassing to return alone than with a young man.

Restoration of Battle Scarred Regions, Rapid, Official Figures Show

Paris.—An impressive picture of the extent of France's achievement in restoring her war-ravaged regions is afforded by M. Loucheur, the Minister of Liberated Regions, in a public statement, entitled "The Revival of France."

Official statistics of the destruction caused by the war and the reconstruction accomplished up to May 1, 1921, are as follows: Areas showing that the France of today is the same as France of yesterday and that in peace as in war she continues to work with steadfastness, courage and confidence.

Covers Wide Range.
M. Loucheur's statement covers the following subjects: Inhabitants, municipalities, schools, houses, land, agriculture, livestock, roads, factories and railways. After showing that 5,164,000 of the 8,000,000 Frenchmen from 15 to 50 years of age mobilized during the war, were killed or wounded, the statement presents the following statistics of civil reconstruction:

Inhabitants—Deported, because of the war, 2,600,728; returned to France, 1,075,709.
Municipalities—Abandoned, 3,256; reestablished, 2,216.
Schools—Before the war, 7,271; reestablished, 6,830.
Houses—Destroyed 789,000; rebuilt 190,213; repaired 226,700.
Land—Devastated, 8,240,000 acres; cleared from projectiles, wire entanglements and trenches, 6,885,000 acres.
Agriculture—Farm land devastated, 4,571,000 acres; farms now cultivated, 3,420,000 acres.
Livestock—Restored.

Livestock—Horses and mules carried away 307,000; restored 24,300; oxen carried away 22,000; restored 320,263; sheep and goats carried away 450,000; restored, 121,164.
Roads—Destroyed 33,900 miles, temporarily repaired 15,425 miles, definitely repaired 8,426.
Factories—Each having at least 50 employees—1214—5,297, destroyed, 4,700; resumed operation 3,645.
France took up arms only in self-defense, endeavoring at the same time to maintain justice and liberty for the world," said M. Loucheur. "For nearly five years her riches, provinces have endured continual martyrdom. And yet by her own means from day to day, the ruins are reviving, houses arise from the ground, fields are covered with promising crops."

The populations of the devastated areas believe that they can rely on the spirit of solidarity of all those who have measured the magnitude of their sacrifice and understood their unquestionable right to the fullest reparations. A vast field of action is open for the demonstration of human brotherhood. These people who suffered martyrdom while the safety of France and the world was at stake, deserve a fresh belief in the joy of life. Besides shelter and food they are entitled to peace and happiness."

FORMER WISCONSIN FOLK TRAVEL FROM TEXAS, MULEPOWER

Madison, Neb.—In these days of rapid locomotion when the average person gets to his destination with all possible speed, the traveler passes beauty and nature such as J. H. Goff and his wife, who have their address as Cornus Christi, Tex., did not propose to do, they told inquirers when the couple passed through here in an old-fashioned spring buggy drawn by a faithful white mule.

Mr. and Mrs. Goff left Texas June 5, and they gave Madison, Wis., as their destination, which they expect to make some time in October.

Mule Motive Power.
"When we started we had two horses besides the mule, but the plains and heat of Texas and Oklahoma were too much for the horses so the mule was forced to take the burden," commented Mr. Goff, after he had made inquiry of the constable for a "hooking" place for his conveyance, mule and the family.

"We have averaged about 30 miles a day," Goff continued, "although we spent much time at different places where I would take a job. How do I like the mode of travel? The best ever except the ridicule we are subjected to whenever we enter a city is a very disagreeable feature."

Odd John Enroute.
Mr. Goff said he was a sole-cutter and leather worker and formerly lived in Madison. He also said he was a veteran of the Boer uprising and the Spanish American war, and the pension he draws from the government, together with the money he is able to make doing odd jobs along the route, has provided them both with sufficient funds to make the trip.

BIG FRUIT SEASON DRAWING TO CLOSE

Winter Produce Pouring in on
Janesville Market in
Quantities.

One of the longest fruit seasons in a number of years has been drawing to a close this week and this coming week will probably see the last of the few remaining summer fruits.

With most eating pears gone, peaches all gone, and few blue plums remaining, the winter fruits and vegetables are now coming in the local markets in quantities. Apples are in great quantity this year, although somewhat high in price. The grocery store windows are filled with all different varieties and many are seen in barrels and baskets on the sidewalks. The best for eating cost five cents each, either the Jonathan or the Delicious. By the bushel, Jonathan comes at \$3.50, which is a low price compared with what they have been some years. Other fancy eating apples come at 10 cents per pound, while the large Greening apples, considered the best for baking, are at 25 cents per bushel. The Wealthy apple, good for either cooking or eating, costs the same.

Few Eating Pears.
What few eating pears remain sell at 5 cents each, the price having been boosted by their scarcity; \$3.50 per bushel is asked for the canning pears. The pears are all gone in many stores while occasionally some are found, costing about 10 cents per dozen. They will probably all be gone this week.

Red grapes have dropped 5 cents per pound in price and now sell in most all stores for 15 cents per pound. 75 cents for a 6-pound basket. The poorest Concord grape season in a good many years is now closing also. Local dealers are handling but few baskets, and the wholesale price makes the retail price not less than 65 cents per basket. They will last just one week or two longer. Peaches are out and will not be seen again until next summer. They lasted from in July until this last week, an exceptionally long season.

Grapfruit continues to come in a little more plentifully each week and now cost from 10 to 15 cents each. They are not all gone in the city. Oranges remain practically the same, only the navel being in now. They cost 50 cents per dozen. Lemons are 40 and 50 cents per dozen and are expected to drop some as the cold weather advances. Bananas are 10 and 15 cents a pound and will advance during the winter. The staple winter vegetables are now selling fast and are coming in from surrounding towns in quantities. There is a great deal of squash on the market this year, and the large ones are now selling for 20 cents, while the small ones are obtainable at 10 and 15 cents.

Cranberries Scarce.
Cranberries are scarce and are selling at 15 and 22 cents per pound. Peppers are 3 cents a piece and in some places 20 cents per dozen. Carrots and beets remain the same from week to week, 6 cents per bunch. Spanish onions are 9 cents a pound, while celery costs 15 cents per stalk in places and less in others. Pumpkins get more popular as Halloween draws near, for pies and for Jack O'Lanterns.

15-cent cabbages cost 10 and 15 cents per head. Cauliflower ranges in price from 20 to 40 cents, according to the size of the vegetable. The last of the quinces are going for 10 cents a pound. Lower prices than have been seen while cabbage is 3 cents and leaf lettuce, 20 and 30 cents per pound. Head lettuce costs 15 cents per head and celery cabbage sells by the pound for 8 cents. Wax beans are 20 cents a pound, almost as low as they are in the middle of summer.

Butter ranges from 40 and 45 to 52 cents per pound and higher while eggs continue to advance, now costing from 45 to 55 cents per dozen.

Charleston, S. C.—Damage estimated at more than \$1,500,000 was caused by a fire late Thursday at the Charleston street terminals of the Charleston Terminal company. But the democratic gentleman is Prince Atsu, second son of the Japanese emperor. The photo was taken while the prince was watching a sport carnival at the military cadet school where he is learning war.

HOAN AND HIRST TILT ON TAXES

Continued from Page 1.

highway purposes, and that motor trucks should bear a big percentage of the tax. Engineer Hirst declared it was radically wrong to take funds obtained from taxes on railroads to build roads to enable truck owners to compete with the railroads, but it is not fair to spend public money for their competitors without the truck owners bearing a part of the highway expenses other than license fees and general taxes," he stated.

Len Small Given Shot.
Engineer Hirst made several reports aimed at Governor Len Small, Illinois. "We have no apologies to make—not even to Governor Small, on our highway program," stated Mr. Hirst.

The increase in traffic, the fact that roads produced traffic, the linking of the state highways, building of 2,500 miles of permanent roads, the improvement of 1,000 more miles were spoken of as this year's achievements. It cost the state \$25,000,000.

Some One Will Get Me.
"It is only a question of time until some one will get me," continued the speaker. "I am fighting for a highway organization that will return value for the money spent. You cannot change officers in a highway department every time the wind blows. Highways must be kept out of politics, favoritism and religion."

"If the American people were served in proportion to the pay they gave public officials, it would be a poorly served public."

"We have made a start on our highways and we are going ahead. Regardless of the industrial times, roads must be built for public good. We forget in our selfishness what conditions would have been had it not been for the improvements."

Some One Else to Pay.
"Every one wants highways but every one wants some one else to pay for them," continued Engineer Hirst. That was the gist of the highway issue before the meeting. "Too great a cost is born by general property of the state and the vehicles must pay more for roads."

The Hirst bill, which is to be revived at the next session carried a two percent tax on all motors to be paid direct to the state to furnish about \$9,000,000 in revenue. The coming fight in American cities is on the methods of the com-

EDGERTON GREETED LEAGUE MEMBERS

Session Held in Tobacco City
With Banquet and
Hospitality.

Edgerton declared a holiday to entertain the Wisconsin League of Municipalities and Janesville became a suburb of Edgerton for a few hours. Edgerton did not stint in her entertainment for the citizens, responded royally, cooperating in full with the Janesville men for the conference.

The trip was made over the new Edgerton road as far as Indian Ford, the road being opened by County Highway Commissioners Charles H. Moore and the long convoy of automobiles. The delegates saw the first concrete road to be built without expansion joints and approved it.

Yield Yields Best.
Nearby Edgerton they were met by "Edgerton's finest" who gave the guests flowers and smiles. The streets of the city were decorated and a guard of honor of service men in uniform lined up at one of the corners.

There were 50 automobiles in the parade, making a long convoy. The guests were shown a trailer plant, the new city temple, the residence district and a few visited the tobacco warehouses.

Welcome Spirit Shown.
There was a fine spirit among the Edgerton citizens in welcoming the delegates.

The banquet was served in the high school, prepared by the domestic science students and served by their teachers. The delegates saw the Edgerton band, two high school orchestras and if there had been more room there would have been more music. During the short extension, Superintendent F. J. Holt presided. The welcome was made by mayor J. J. Leary, who declared "we are all neighbors in the great state of Wisconsin."

The cooperative, progressive spirit of the city, the industries and growth of Edgerton were detailed by Chairman Holt.

Conference on Program.
George Blanchard, city clerk and attorney, praised Edgerton and had a few remarks about Janesville. "Janesville is the one town we are for in Rock county. We cooperate and get along fine on most everything," Attorney Blanchard declared.

At the close of the entertainment, there were movies and then the meeting turned over to President A. A. Bentley, La Crosse, for the regular session.

J. G. D. Mack, representing the state department of engineering, gave a technical paper on the letting of contracts, specifications and bidding for public work.

"The cost plus system is outlawed," he stated. "Open specifications were favored against closed. The return to Janesville was made with the majority of the automobiles going over the Milton Junction road. The automobiles were furnished by Janesville and Edgerton residents."

He recommended a return of road funds on the accepted basis of 70 percent to the cities, 20 to the counties and 10 to the state. The committee petitioned for will be appointed by the officers elected Friday. They will confer with the state road authorities with the view of a compromise on a auto, motor and vehicle tax matter before the legislature for consideration.

"I believe in more roads but not to have the state take and vehicle tax matter before the legislature for consideration."

he was applauded with wild cheer.

They Say—

C. E. Hammersley, city attorney of Shorewood.

Shorewood—Shorewood is the largest village in the state and is the nearest approach to a twentieth century village in the United States. It is entirely residential and we intend to keep it so. It is just outside Milwaukee and many of the citizens are connected with large factory interests in Milwaukee, making their home in Shorewood. We have a zoning system that is working out well. The first ordinance was passed in June, 1919, and a number of amendments have been made since. As a result of the ordinance, several suits for damages were brought up but in each case the court found that no damages had been suffered.

Our population has increased from 705 to 3,500 in just a few years; and the assessed valuation has increased from \$900,000 in 1912 to more than \$10,000,000 at present. This has been purely through the improvement of streets and are still paving, thus giving work to our few unemployed.

In the last ten years we have installed water, sewer, street and sidewalk and at the time that the schools were built, had the third largest school sites in the country. Our present site for a new high school building is 15 acres.

Concerning freight rates and business, Mr. Hammersley stated that business would not pick up until the freight rates had been reduced. The present freight rates are throttling business, he stated. With freight on coal as high as they are, no one can expect the price to go down.

When the average man changes his attitude toward business, it will start returning to normal. The average man has to get something for nothing. There should be some prevention to the trade associations fixing the prices on goods. Nowadays, every line of business is connected with some trade association, which makes the prices higher. The laboring man and the consumer are the

only exceptions, and they must pay the price that is set. These combinations should be broken, as they are the things that are creating dissatisfaction on the part of the laboring man and those in clerical work.

The trade associations have grown up as a result of the tendency caused by the commissions of the state. The plan they used has been adopted by businesses and it is now up to the government through the local district attorneys to break up the associations.

SUPREME COURT MAY NAME REFEREE FOR FILLED MILK CASE

[BY ASSOCIATED PRESS.]

Madison—There is a probability that the supreme court will name a referee to take testimony on issues of fact involved in the court battle that has resulted over the state law against manufacture and sale of filled milk in Wisconsin. It is said here the court may have these questions threshed out before it makes a decision on the request of the state to have the complaint of the Carnation milk company dismissed.

Issues in the case were drawn yesterday when the attorney general filed a reply to the complaint of the Carnation milk company against enforcement of the law which was supposed to have gone into effect Sept. 27.

The state claims that the filled milk is fraudulently manufactured and sold in the state against the law, while the company claims that it is making and selling a wholesome food compound.

Hamline, Minn.—Holstein cattle were to figure prominently in Friday's program of the National Dairy show here, as the annual Holstein sale conducted in connection with the show was to be held in the afternoon. Breeders and admirers from all sections of the continent were present for the sale.

Synod Mission Conclave Ends

[BY ASSOCIATED PRESS.]

Racine—The Woman's Synodical Missionary society of the Presbyterian Church of Wisconsin, which met this week in the First Presbyterian church simultaneously with the Presbyterian synod, closed its sessions Thursday. Officers for the ensuing year were elected as follows:

Mrs. William Mainland, Oshkosh, president; Mrs. E. A. Cutler, Waukegan, first vice president; Mrs. J. Borgstrom, Neenah, second vice president; Mrs. Henry Blair, Waukegan, third vice president; Mrs. A. G. Weisser, Milwaukee, treasurer; Mrs. Delwin Towle, Oshkosh, recording secretary; Mrs. B. G. Jackson, Milwaukee, corresponding secretary.

The program of the afternoon included an address by Dr. W. A. Canfield, president of Carroll college, who spoke on "Our Synodical college."

WISCONSIN FRUIT CROPS DECLINE

Apple Slump 200,000 Bushels; September Conditions Too Wet.

Madison.—Wisconsin's fruit crops generally declined during the month of September, states Joseph A. Decker, of the Wisconsin Cooperative Crop Reporting Service (U. S. Bureau of Markets and Crop Estimates, and Wisconsin State Department of Agriculture). In his October crop report, Decker states that the apple crop declined over 200,000 bushels, while cranberry production declined 4,000 barrels.

Apples.—The Wisconsin apple crop suffered from too wet soil conditions during September. A considerable quantity of fruit was spoiled by bursting, due to excessive moisture. The crop is estimated at 1,360,000 bushels, compared to 2,355,000 bushels in 1920, and a 5-year average of 2,000,000 bushels. Condition on September 1 was 40% of normal, compared to 45% on September 1, 1920, a year ago and a 10-year average of 50%.

The commercial crop is estimated at 1,080,000 bushels, compared to 1,250,000 bushels in 1920 and 1,350,000 bushels in 1919.

United States.—Production of apples in the United States is estimated at 120 million bushels, compared to 100 million in 1920 and a 5-year average of 183 million bushels. Condition on October 1 was 35.6%, compared to 34.9% a month ago, 74% on October 1, 1920, and a 10-year average of 56.7%.

The commercial crop is estimated at 13.8 million barrels, compared to 10.0 million in 1920 and 11.0 million in 1919.

Two Criminal Cases Left in Elkhorn Court

Elkhorn.—Only two criminal cases remain to be tried on the present calendar of the county court which has jurisdiction in Walworth county. One is a violation of the prohibition laws and the other the trial of George Osborne, a farm laborer of Darien, who is charged with a statutory offense.

Osborne was employed on the L. D. Beull farm and is alleged to have attacked Mrs. Beull. The case excited much feeling against Osborne who was arrested after an all night fight through the woods. The case is being held up until a man photographer is secured to take the testimony.

The jury in the case of Daniel Moulton against James Bodden returned a verdict for the defendant. It was a question of wages. Moulton worked for Bodden and claimed he was to receive \$50 per month. Bodden claimed that the wage was to be only \$50 per month. Several cases were settled and the jury dismissed until Friday morning.
